DATE: Monday, 27TH to Friday 31ST OCTOBER, 2025

VENUE: CREST RESORT, JALINGO, TARABA STATE

Taraba state was created on the 27th of August, 1991 from the South Western half of the defunct Gongola State. Its capital is located in Jalingo, and the state is aptly tagged as *"Nature's Gift to the Nation"* — a name that reflects its abundant natural resources and breath-taking landscapes. These abundant natural resources, if properly harnessed, can revolutionise and transform the livelihood of the people and the economy of the state.

With a vast land area of over 54,473 square kilometres, Taraba State is divided into 16 Local Governments areas: Ardo Kola, Bali, Donga, Gashaka, Gassol, Ibi, Jalingo, Karim Lamido, Kurmi, Lau, Sardauna, Takum, Ussa, Wukari, Yorro and Zing. Taraba state is home to around 80 distinct ethnic groups including the Jukun, Kuteb, Mumuye, Karimjo, Mambilla, Tiv, Wurkun, Yandang, Ndola, Ichen, Jenjo, Tigon, Jibu, and Fulani among others.

Taraba state is bordered in the north by Bauchi and Gombe states, in the east by Adamawa state, in the south by Cameroon, and in the west by Benue, Nassarawa and Plateau states. The state is served by numerous roads running north to Yola, west to Gombe and Bauchi, and south to Makurdi. For air travels the Danbaba Suntai Airport which is being serviced by the Overland Airline on a daily basis from Abuja is about 8km away from the City Centre and the Congress venue.

Geographically, the state boasts of some of the most captivating natural features in Nigeria. The Mambilla Plateau, located in Sardauna Local Government Area, is one of the most picturesque and ecologically distinct regions in Nigeria. Perched at an average elevation of over 1,600 meters above sea level, it enjoys a semi-temperate climate with temperatures dropping as low as 12°C. It hosts the highest point in Nigeria, the Chabbal Waade peak, which rises to 7,936 feet above sea level. The plateau is a unique tsetse fly-free zone, making it ideal for cattle

ranching, with vast stretches of lush pasture supporting both traditional and commercial livestock farming. It is also known for its avocados, white carrots, tourist attractions on the Nyaki Forest Reserve, Hydroelectric Power and Samari Tea Projects. The plateau is a unique cultivation of unique fruits such as apples, bananas, and yellow peppers. Prominent plateau include the Barup Waterfalls, Ngel Chabbal Hindu, and the site of the Mambilla (MHP) Project. Additionally, the Highland Tea at Kakara and Maisamari respectively highlight the region's economic potential. The Mambilla Plateau stands as a testament to the state's beauty, economic promise, and ecological richness.

Nature's Gift 2025

The state is also rich in rivers, notably the Benue, Taraba, and Donga and their tributaries, which supports agriculture, fishing and water transportation. The climate is bipolar with semi-temperate on the Mambilla Plateau and tropical in the lowland areas with Guinea and Sudan savannah vegetation which supports the largely agrarian economy of the State. The continuation of the cold shebshi mountain from Cameroon to Yorro LG gives intriguingly beautiful highland scenery.

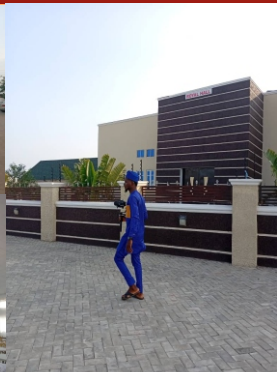

Agriculture is the mainstay of the economy, with the populace cultivating crops like cassava, yams, millet, sorghum, rice, sugarcane, sesame, maize, and potatoes, while also engaging in livestock farming and fishing. Kurmi LG area is noted for rubber, cocoa, and oil palm production. Taraba is also known for its wildlife and conservation efforts. The Gashaka-Gumti National Park, once a game reserve, was upgraded in the 1980s and is now home to a rich variety of wildlife, flora, and fauna. Culturally, the state is vibrant, with festivals such as the Nwunyo Fishing Festival in Ibi attracting tourists. There are also several ethnic festivals that are open to tourists with no restrictions.
